#### **H2047: INSURANCE; OPTOMETRISTS; CONTRACTS; COVERED SERVICES**

A contract entered into or renewed on or after January 1, 2022, between an optometric service corporation, health care services organization or disability insurer and an licensed optometrist cannot require the optometrist to provide services to an individual covered under a subscription contract, evidence of coverage or insurance policy based on a fee set by the corporation, organization or insurer unless the service for which the fee applies is a "covered service" (defined) under the individual's contract, coverage or policy. These contracts are also prohibited from requiring an optometrist to use specific vendors to replenish inventory of spectacle lenses, and from prohibiting an optometrist from offering or providing a vision service that is not a covered service at a fee determined by the optometrist. #### **H2119: HEALTH CARE INSURANCE; AMENDMENTS**

Various changes to statutes relating to health insurance. The article of statute regulating insurance holding company systems applies to all service corporations. Statute prohibiting payment for services to persons other than the assignee applies to a service corporation. Hospital, medical, dental and optometric service corporations are no longer prohibited from influencing the subscriber in the subscriber's free choice of hospital or practitioner. Modifies reporting requirements due dates. Statute establishing requirements for premium rates and rating practices does not apply if a small employer obtains a health benefits plan that is subject to and complies with specified federal law. Modifies exemptions from utilization review activities. AS SIGNED BY GOVERNOR

## **H2298: MEDICAL MARIJUANA; RESEARCH; GRANTS**

The Arizona Biomedical Research Centre in the Department of Health Services is required to provide competitive grants from monies in the Medical Marijuana Fund for marijuana clinical trials for evaluating the safety and efficacy of using marijuana in humans and researching the impacts of marijuana interactions with prescription drugs, nonprescription drugs and illicit drugs. Requirements for the clinical trials are specified. The Centre is authorized to provide up to \$5 million annually for five consecutive years from the Fund to administer and award competitive grants. Administrative costs are capped at five percent. Due to voter protection, this legislation requires the affirmative vote of at least 3/4 of the members of each house of the Legislature for passage. ## **H2392: AHCCCS; GRADUATE MEDICAL EDUCATION; REIMBURSEMENT**

Beginning March 1, 2022, the Arizona Health Care Cost Containment System Administration is required to establish a separate Graduate Medical Education Program to reimburse qualifying community health centers and rural health clinics that have an approved primary care graduate medical education program. The Program is contingent on approval by the federal Centers for Medicare and Medicaid Services. The AHCCCS Administration is required to adopt rules specifying the formula by which monies appropriated for graduate medical education are distributed to qualifying community health centers and rural health clinics. Establishes reporting requirements for recipients of the funds, and requires the AHCCCS Administration to report to the Joint Legislative Budget Committee by July 1 of each year on the number of new residency positions created with the funds. ## H2414: MARIJUANA; INSPECTIONS; LICENSE RENEWAL

The Department of Health Services (DHS) is authorized to inspect a medical marijuana dispensary at any time during regular hours of operation, and the requirement for DHS to give reasonable notice of an inspection is deleted. DHS is required to make at least one unannounced visit annually to each nonprofit medical marijuana dispensary. The initial license renewal date for a dual licensee of a marijuana establishment and nonprofit medical marijuana dispensary is the earlier of the date of the establishment license renewal or the dispensary registration renewal. DHS rules are required to prohibit a marijuana testing facility from having any direct or indirect familial relationship with or financial ownership interest in a marijuana establishment or related marijuana business entity or management company. Due to voter protection, this legislation requires the affirmative vote of at least 3/4 of the members of each house of the Legislature for passage. AS PASSED SENATE

**H2454: TELEHEALTH; HEALTH CARE PROVIDERS; REQUIREMENTS**

Modifies the requirements for health and disability insurers to cover telehealth services. Insurers are required to reimburse health care providers at the same level of payment for equivalent services whether provided through telehealth using an audio-visual format or in-person care. Does not apply to a telehealth encounter provided through a platform sponsored or provided by the insurer. Insurers cannot require a health care provider to use a telehealth platform sponsored or provided by the insurer as a condition of network participation. The definition of "telehealth" is expanded to include the use of an audio-only telephone encounter between an insured and a health care provider if specified conditions are met. Establishes a 27-member Telehealth Advisory Committee on Telehealth Best Practices to review standards for telehealth best practices and relevant peer-reviewed literature, and to adopt telehealth best practice guidelines and recommendations. Factors the Committee must consider when doing so are listed. The Committee is required to submit a report of its findings and recommendations to the Governor and the Legislature by December 1, 2021. Beginning January 1, 2022, insurers are required to cover services provided through an audio-only telehealth encounter if the Committee recommends that the services may appropriately be provided in that manner. Before January 1, 2022, insurers are required to cover services provided through an audio-only telehealth encounter if that service is covered by Medicare or the Arizona Health Care Cost Containment System when provided in this manner. A health care provider regulatory board or agency is prohibited from enforcing any statute, rule or policy that would require a health care provider who is licensed by that board or agency and who is authorized to write prescriptions to require an in-person examination of the patient before issuing a prescription, except as specifically prescribed by federal law. Consistent with the best practice guidelines adopted by the Committee, health care providers are required to make a good faith effort to use best practices in determining whether a health care service should be provided through telehealth instead of in person, and in determining the communication medium of telehealth. Network adequacy standards required by state or federal law cannot be met by an insurer through the use of contracted health care providers who provide only telehealth services and do not provide in-person health care services in Arizona. Health care providers who are licensed in another state are authorized to provide telehealth services to a person in Arizona if the provider complies with a list of requirements, including maintaining liability insurance and following community of care standards. By September 1, 2021 or 30 days after the effective date of this legislation, whichever is earlier, the Department of Health Services is required to develop a three-year pilot program that allows the delivery of acute care services to patients in the patient's home by licensed hospitals in Arizona working in coordination with licensed home health professionals. By March 31, 2023, the Department of Insurance and Financial Institutions is required to report specified information on telehealth encounters to the Legislature. Emergency clause. **H2521: LONG-TERM CARE; HEALTH AIDES**

Subject to approval by the Centers for Medicare and Medicaid Services, the Director of the Arizona Health Care Cost Containment System Administration is required to implement a program under which "licensed health aide" (defined) services may be provided to Arizona Long-Term Care System (ALTCS) members who are under 21 years of age. Licensed health aide services may be provided only by a parent, guardian or family member who is a licensed health aide employed by a Medicare-certified home health agency service provider. A person who wishes to practice as a licensed health aide is required to apply to the Board of Nursing and pay an application fee of \$50. Establishes qualifications for licensure as a health aide, including completion of a training program approved by the Board and a competency examination. AS SIGNED BY GOVERNOR

## **H2682: TOBACCO PRODUCTS; VAPOR PRODUCTS; RETAIL SALES (PHARMACY BOARD; RULEMAKING AUTHORITY)**

The powers and duties of the Department of Liquor Licenses and Control (DLLC) are expanded to include enforcing statute regulating tobacco sales, investigating the sales of "alternative nicotine products," "tobacco products," or "vapor products" (all defined) to persons under the 21 years of age, causing these products to be removed from the marketplace if they may be contaminated, and taking other regulatory actions related to these products. Beginning January 1, 2023, a retail tobacco vender is prohibited from distributing alternative nicotine products, tobacco products or vapor products in Arizona without a valid tobacco retail sales license issued by DLLC. The DLLC is required to establish fees for an initial license or renewal license. A license is valid for one year, and a license is not transferable. It is unlawful for a retail tobacco vendor to sell, furnish, give or provide an alternative nicotine product, tobacco product or vapor product to a person who is under 21 years of age. Establishes requirements for licensees to obtain identification from a person ordering or purchasing these products in order to determine that the person is at least 21 years of age, and establishes penalties for violations. A person under 21 years of age who misrepresents the person's age or solicits another person to purchase or furnish these products is guilty of a petty offense. DLLC is authorized to delegate the enforcement and compliance inspections of tobacco retail sales to any county that accepts the delegation. Various regulations of tobacco products are expanded to include vapor products and alternative nicotine products. The regulation of the sale and marketing of alternative nicotine products, tobacco products and vapor products is a matter of statewide concern and is not subject to further regulation by counties and municipalities, except as specifically provided in this legislation. Effective January 1, 2022. Severability clause. AS PASSED SENATE

## **H2759: RULEMAKING; PETITIONS; GRRC**

On receipt of a petition to review an existing agency practice, substantive policy statement, final rule, or regulatory licensing requirement that the petitioner alleges violates state law, is not authorized by statute, is unduly burdensome or is not demonstrated to be necessary to fulfill a public health, safety or welfare concern, the Governor's Regulatory Review Council (GRRC) is required to review the practice, policy, rule, or requirement. Previously, GRRC was required to review the petition only if the practice, policy, rule or requirement applied to a profession for which the average wage in that profession in Arizona did not exceed 200 percent of the federal poverty guidelines for a family of four. ## H2809: MARIJUANA; ADVERTISING; LABELING; SIGNAGE; SALE

Marijuana establishments are required to label all marijuana and marijuana products at a retail site with a warning that marijuana should not be used by women who are pregnant or breastfeeding. Department of Health Services (DHS) rules must require marijuana establishments to display a conspicuous sign that warns pregnant women about the potential dangers to fetuses caused by smoking or ingesting marijuana while pregnant or to infants while breastfeeding and the risk of being reported to the Department of Child Safety. DHS rules are also required to prohibit a marijuana establishment retail site from providing free samples of marijuana or marijuana products for on-site use. Marijuana establishments are prohibited from selling marijuana or marijuana products to persons who are "obviously intoxicated" (defined). Establishes a list of prohibited advertising for marijuana establishments and nonprofit medical marijuana dispensaries. Due to voter protection, this legislation requires the affirmative vote of at least 3/4 of the members of each house of the Legislature for passage.

## **H2820: DIETITIAN NUTRITIONISTS; LICENSURE**

A person would have been allowed to use the title "certified nutrition specialist", "dietitian", "registered dietitian", "registered dietitian nutritionist", or "licensed dietitian", or any alternative spelling of those titles, or the abbreviation "RD" or "RDN" in any advertisement or publication or orally or in writing to any member of the public only if that person was licensed as a dietitian nutritionist by the Department of Health Services (DHS). Would have established requirements for licensure and required DHS to establish licensure fees. Violations would have been a class 3 (lowest) misdemeanor, subject to specified civil penalties. The list of items that a licensed hospital would have been permitted to allow a licensed dietitian nutritionist, instead of a qualified nutrition professional, to order would have been expanded to include a change in diet orders, durable medical equipment related to nutrition, and medical nutrition therapy. AS VETOED BY GOVERNOR. In his veto message, the Governor stated that this legislation created unnecessary barriers for individuals looking to earn an honest living.

## **H2891: BUDGET; BRB; BUDGET PROCEDURES; 2021-2022 (BUDGET PROCEDURES; BUDGET RECONCILIATION; 2021-2022)**

Makes various changes that affect the budget across agencies. Requires the Governor to appoint a State Permitting Director to establish and maintain an online database called the Permitting Dashboard that displays the progress to completion for state authorizations for "participating projects" (defined). The Director is required to coordinate with a list of specified state agencies and any other agency that requires authorization for a participating project. Information that may be displayed on the Permitting Dashboard is listed. A project sponsor of an "eligible project" (defined as an activity in Arizona that requires authorization by an agency, that is subject to applicable state environmental laws, that is likely to require a total construction investment of more than \$25 million, and that meets other specified requirements) is authorized to submit to the Director a notice that the project sponsor is initiating a proposed project, and information that must be included in the notice is established. No later than 30 days after receipt of the notice, the Director is required to determine whether the proposed project qualifies as an eligible project and whether to include it as a participating project in the Permitting Dashboard. No later than 45 days after the determination, each agency identified by the project sponsor is required to submit to the Director all anticipated authorizations required for the participating project, including the target completion time for each step required. Agencies cannot require an eligible project to participate in the Permitting Dashboard. Establishes a process for resolution of disputes relating to the permitting timetable. Permitting Dashboard provisions self-repeal January 1, 2029. Contracts for goods and services approved by the Public Safety Personnel Retirement System Board (PSPRS Board) are no longer exempt from the Procurement Code. The PSPRS Board is required to establish and administer an Administration Account. Monies that must be deposited in the Administration Account and expenditures that must be paid from the Administration Account are listed. Establishes the Major Events Fund to be administered by the Arizona Commerce Authority and used to support the planning and operation of the competitive bid process for major events in coordination with the Office of Tourism and for other economic development activities associated with major event operations. Liabilities in excess of \$200,000 incurred by the Arizona Department of Forestry and Fire Management during an emergency arising from major disasters may be reimbursed with the approval of the Governor or State Emergency Council. The Director of the Arizona Legislative Council is required to direct and manage the State Capitol Museum and administer the Museum Gift Shop Revolving Fund. Modifies deadlines for various reports to the Governor and the Legislature. Session law affirms that the legal defense of state election laws and procedures is of statewide importance and the Attorney General has the sole authority to defend such laws. The Attorney General is prohibited from representing or providing legal advice to the Secretary of State or the Department of State on any matters through June 30, 2023. The Secretary of State is authorized to hire one FTE position to serve as legal advisor and represent the Secretary of State, but the Secretary is prohibited from making expenditures or incurring indebtedness to employ outside or private attorneys to provide representation or services. Requires any unrestricted federal monies received by Arizona in FY2021-22 to be deposited in the general fund. Maintains the Capital Outlay Stabilization Fund rental rates for state-owned buildings of \$17.87/square foot for office space and \$6.43/square foot for storage space. For FY2021-22, FY2022-23, and FY2023-24, the Legislature is not required to appropriate monies to or transfer monies from the Budget Stabilization Fund. Before spending monies from specified funds as appropriated by the federal American Rescue Plan Act of 2021 in the amount of \$10 million or more for one designated purpose, the Governor, the Superintendent of Public Instruction, and the Arizona Board of Regents are each required to notify the Legislature of the intended use of the monies. Establishes quarterly reporting requirements for expenditures from these funds. Establishes a 13-member Advisory Committee on the Formation of a Southern Arizona Regional Sports Authority. The amount appropriated to the Department of Public Safety for body cameras is exempt from specified requirements, including independent third-party validation and verification requirements.

Makes various appropriations for capital expenditures for FY2021-22. Appropriates \$11.5 million from the general fund and \$400,000 from the Legislative, Executive and Judicial Public Buildings Land Fund to the Legislative Council to repair, restore and renovate the historic capitol building. Appropriates \$10 million from the general fund and \$15.56 million from other funds to the Arizona Department of Corrections (ADC) for fire and life safety upgrades at the Eyman State Prison Complex. Appropriates \$25 million from the general fund to the Department of Veterans' Services to construct and establish a veterans' home facility in northwestern Arizona. Appropriates \$6.9 million from the State Highway Fund to the Arizona Department of Transportation (ADOT) for specified facilities, \$161.8 million from the general fund to ADOT for highway projects, and \$109.1 million from the general fund to ADOT for pavement rehabilitation along specified highways. Appropriates \$50 million from the general fund to ADOT to widen I-10 between Phoenix and Casa Grande. Appropriates \$361.1 million from the State Highway Fund to the ADOT for state highway construction. Appropriates \$18 million from the general fund in FY2020-21 to the State Aviation Fund to plan, construct, develop and improve county and municipal airports, and \$26 million from the State Aviation Fund to plan, construct develop and improve state, county and municipal airports as determined by the State Transportation Board. Also appropriates \$18 million from the Capital Outlay Stabilization Fund and \$6.2 million from the general fund to the Department of Administration, \$5.86 million from the Department of Corrections Building Renewal Fund and 22.2 million from the general fund to ADC, \$1.22 million from the Game and Fish Fund to the Game and Fish Department, and \$15.4 million from the State Highway Fund to ADOT for building renewal projects and expenditures. Makes various appropriations from the State Parks Revenue Fund to the Arizona State Parks Board for specified improvements at state parks. Makes various other appropriations for capital improvements, property maintenance, and demolition of unused buildings.

## **H2895: BUDGET; GENERAL APPROPRIATIONS ACT; 2021-2022 (~~GENERAL APPROPRIATIONS ACT; 2021-2022~~)**

The "feed bill" for FY2021-22, containing appropriations for state agencies and programs. Provisions include: Requires the Auditor General to conduct a special audit of financial and related information of any private, nongovernmental grant monies used for Arizona's 2020 elections and Maricopa County's procurement of voting systems. The Auditor General is required to submit a report on the audit to the Governor and the Legislature by March 31, 2022, and information that must be included in the report is listed. Requires the Auditor General is compile information on how all Arizona school districts and charter schools spent or plan to spend stimulus monies specified in the federal acts related to the COVID-19 pandemic and ho the Arizona Department of Education spent or plans to spend its stimulus discretionary monies specified in the federal acts related to the COVID-19 pandemic in FY2019-20, FY2020-21, and FY2021-22. Appropriates \$4.615 billion in FY2021-22 for basic state aid to school districts for maintenance and operations funding. Continues deferment of \$900.7 million in basic state aid payments to schools until FY2022-23. Makes a supplemental appropriation of \$38.76 million from the general fund in FY2020-21 to the School Facilities Board for building renewal grants. Appropriates \$47.95 million from the general fund in FY2022-23 for a one time deposit in the New School Facilities Fund. The sum of \$74.7 million is reduced from appropriations made from the general fund in FY2021-22 to eliminate debt service payments following the retirement or defeasance of financing agreements entered into pursuant to the FY2015-16 budget, consisting of \$57.24 million from appropriations to the School Facilities Board New School Facilities Fund and \$17.46 million from appropriations to the Department of Corrections private prison per diem line item. Appropriates \$53.7 million from the general fund in FY2021-22 to DOA for debt service payments on the sale and leaseback of state buildings. Makes a supplemental appropriation of \$507.1 million from the general fund in FY2020-21 to the Department of Administration (DOA) to pay for the retirement or defeasance of financing agreements and state lottery revenue bonds. Makes a supplemental appropriation of \$17.04 million from the general fund in FY2020-21 to the Department of Administration (DOA) for distribution to counties with political subdivisions in Arizona that paid refunds ordered in the Transwestern Pipeline Co. v. Arizona Department of Revenue litigation. Makes supplemental appropriations to the Department of Child Safety and the Department of Economic Security (DES) in FY2020-21 for caseload adjustments. Makes a supplemental appropriation of \$62 million from the general fund in FY2020-21 to DES for deposit in the Unemployment Compensation Fund. Appropriates \$55 million from the general fund in FY2020-21 to the Department of Emergency and Military Affairs for deposit in the Border Security Fund. Makes a supplemental appropriation of \$300 million from the general fund in FY2020-21 to the Public Safety Personnel Retirement System (PSPRS) to be deposited in the employer account of the Department of Public Safety PSPRS group to reduce the unfunded accrued liability. Appropriates the following amounts from the general fund in FY2021-22 to the Department of Administration (DOA) for distribution to counties for maintenance of essential county services: \$7.15 million for distribution to counties with a population of less than 900,000, \$500,000 for distribution to Graham County, and \$3 million to supplement the normal cost plus an amount to amortize the unfunded accrued liability in the Elected Officials' Retirement Plan, which DOA is required to allocate equally among all counties with a population of less than 300,000 persons. On or after April 1, 2022, the Department of Economic Security is authorized to use up to \$25 million from the Budget Stabilization Fund to provide funding for reimbursement grants. This appropriation must be fully reimbursed by September 1, 2022. Requires various reports and makes various fund transfers.

#### **H2896: BUDGET; BRB; HEALTH; 2021-2022 (~~HEALTH; BUDGET RECONCILIATION; 2021-2022~~)**

Makes various policy changes in the area of public health that affect the budget. Community developmental disability service providers are required to develop and implement policies and procedures regarding the communication to responsible persons of a serious incident affecting a client who is living in a community residential setting within 24 hours after the incident occurs. The Department of Health Services (DHS) is required to annually visit and inspect the premises used for the care of children or vulnerable adults for sanitation, fire and other actual and potential hazards, and to take any action it deems necessary to carry out its statutory duty to regulate developmental homes. DHS is also required to notify the parent or guardian of a developmental home resident of any serious incident or complaint at the home involving the client for whom the parent or guardian is responsible. Subject to available monies, the Office of the State Long-term Care Ombudsman is required to visit each long-term care facility in Arizona without prior notice at least two times each calendar year to speak with each resident without the presence of the facility's staff. The newborn screening program is required to include all congenital disorders that are included on the recommended uniform screening panel adopted by the Secretary of the U.S. Department of Health and Human Services for both core and secondary conditions. Beginning January 1, 2022, disorders that are added to the core and secondary conditions list of the recommended uniform screening panel must be added to Arizona's newborn screening panel within two years after their addition. DHS is required to present any change to the newborn screening program fee to the Joint Legislative Budget Committee for review. No later than 60 days after DHS adjusts the fee, health insurers and the Arizona Health Care Cost Containment System (AHCCCS) are required to update hospital rates that include newborn screening to reflect the increase. Session law requires DHS to add spinal muscular atrophy and x-linked adrenoleukodystrophy to Arizona's newborn screening panel by December 31, 2021 and to add all remaining core and secondary conditions that are included on the recommended uniform screening panel as of December 31, 2021 to Arizona's newborn screening panel by December 31, 2023. The Department of Child Safety (DCS) is required to establish and maintain a Comprehensive Health Plan Expenditure Authority Fund as a separate fund to distinguish DCS revenues and DCS expenditures for comprehensive medical and dental care from other programs that are funded and administered by DCS. All monies from capitated payments in the Fund that are unexpended and unencumbered at the end of the fiscal year revert to the general fund. Establishes the Sexual Violence Service Fund, to be administered by the Department of Economic Security (DES). DES is required to spend monies in the Fund to provide grants to service providers for victims of sexual violence. DES is required to develop a weighted methodology for allocating grant monies, in consultation with the federal designated statewide coalition to end sexual violence. During FY2021-22, DES is required to screen and test each adult recipient who is otherwise eligible for temporary assistance for needy families (TANF) cash benefits and who DES has reasonable cause to believe engages in the illegal use of controlled substances. Any recipient who test positive for the use of a controlled substance that was not prescribed by a licensed health care provider is ineligible to receive benefits for a period of one year. For the contract year beginning October 1, 2021 and ending September 30, 2022, the Arizona Health Care Cost Containment System (AHCCCS) Administration is authorized to continue the risk contingency rate setting for all managed care organizations and the funding for all managed care organizations administrative funding levels that was imposed for the contract

year beginning October 1, 2010 and ending September 30, 2011. By December 31, 2022, for FY2021-22, the AHCCCS Administration is required to transfer to the counties the portion, if any, as may be necessary to comply with the federal Patient Protection and Affordable Care Act. Specifies county contributions for ALTCS, and AHCCCS acute care and hospitalization and medical care for FY2021-22. County contributions for Proposition 204 administrative costs and for competency restoration treatment are excluded from county expenditure limitations. Provides for disproportionate share hospital payments for FY2021-22. Establishes various reporting requirements.

### **S1078: MEDICAL STUDENT LOAN PROGRAM**

Various changes to the Medical Student Loan Program. Membership of the Board of Medical Student Loans is modified to remove all current members except the Director of the Department of Health Services and two Governor's appointees who are knowledgeable in the problems of health care in Arizona and replace them with one representative from each accredited medical school in Arizona. Session law allows current Board members to continue to serve until the expiration of their normal terms. Retroactive to July 1, 2021, the statutory life of the Board is extended eight years to July 1, 2029. Removes the requirement for at least 50 percent of loan monies to be apportioned for students attending private medical schools. Modifies penalties for a loan recipient who does not fulfill the conditions of the loan contract. Appropriates \$2 million from the general fund in FY2021-22 to the Medical Student Loan Fund.

### **S1087: PHARMACY BOARD; REGULATION; NONDISCIPLINARY ACTION**

Various changes to statutes relating to the Arizona State Board of Pharmacy. The definition of "pharmacy" is expanded to include a remote hospital site pharmacy, as defined by the Board in rule, that operates under direct or remote supervision by a pharmacist. Authorizes the Board to issue a "durable medical equipment distributor" (defined) permit. The Board is required to open an investigation only if the identifying information regarding a complainant is provided or is sufficient to conduct an investigation. The Board is authorized to issue nondisciplinary civil penalties and to prescribe these penalties in rule. Establishes a list of acts and omissions that are subject to a nondisciplinary civil penalty, including failing to update an online profile for various information changes and failing to renew a license or permit within specified timeframes. The designated representative of a full-serve wholesale permittee is required to possess a valid fingerprint clearance card, instead of being required to submit a full set of fingerprints for a state and federal criminal records check. Naloxone hydrochloride or any other opioid antagonist is prohibited from being viewable in a patient utilization report. AS SIGNED BY GOVERNOR

### **S1088: CONTROLLED SUBSTANCES; SCHEDULE DESIGNATION**

The State Board of Pharmacy is required to adopt by rule the schedule I, II, III, IV and V controlled substances listed in the code of federal regulations and to amend the rules as necessary to reflect changes in the designations. The rules adopted by the Board are prohibited from including any material, compound, mixture or preparation that contains any quantity of a controlled substance that is listed as an exempt substance in specified federal code. The definition of "controlled substances" throughout statute is modified to include those adopted by the Board by rule according to this requirement. The statutory lists of chemicals that are designated as controlled substances in each schedule level are deleted. AS SIGNED BY GOVERNOR

### **S1089: BEHAVIORAL HEALTH PROFESSIONALS; UNAUTHORIZED PRACTICE**

A person who is not licensed and who practices or attempts to practice or who holds himself out as trained and authorized to practice behavioral health, including diagnosing or treating any mental ailment, disease, disorder or other mental condition of any person, without being authorized by law to perform the act, is engaging in the unauthorized practice of behavioral health, is guilty of a class 6 (lowest) felony, and is subject to a civil penalty of up to \$500 for each offense. A person who conspires with or aids and abets another to commit any act constituting the unauthorized practice of behavioral health is guilty of a class 6 (lowest) felony and is subject to a civil penalty of up to \$500 for each offense. The Board of Behavioral Health Examiners is required to notify the Department of Health Services if a licensed health care institution employs or contracts with a person who is investigated for the unauthorized practice of behavioral health. Also modifies the post-master's degree experience or post-bachelor's degree experience requirements for licensed clinical social workers, licensed professional counselors, licensed marriage and family therapists, and licensed substance abuse counselors. ### **S1090: OUTPATIENT TREATMENT CENTERS; BEHAVIORAL HEALTH**

An employee of a licensed outpatient treatment center that provides behavioral health services is authorized to provide behavioral health services at a private office or clinic that is operated by an exempt health care provider under specified

circumstances, including that the services are provided to a patient of the exempt health care provider or the licensed outpatient treatment center, and the licensed outpatient treatment center and the exempt health care provider have a written agreement specifying the terms of the provided services. The licensed outpatient treatment center is required to report to the Department of Health Services (DHS) any unexpected death, self-injury or other injury of a patient under the care of its employee that occurs on the premises of the exempt health care provider and whether the injury required medical attention, and DHS is authorized to report the incident to the licensing board of any health care professional involved in the incident. ### **S1091: CONTROLLED SUBSTANCES MONITORING PROGRAM; DELEGATES**

The State Board of Pharmacy is authorized to release data collected by the Controlled Substances Prescription Monitoring Program to a health care insurer if the insurer states in writing that the information is necessary for an open investigation or complaint or for performing a drug utilization review that supports the prevention of opioid overuse or abuse or the safety and quality of care provided to the insured. Data provided by the Board from the Program is prohibited from being used for credentialing health care professionals, determining payment, preemployment screening, or any other purpose other than preventing overuse or abuse of controlled substances and the safety and quality of care provided. Any employee of the Arizona Health Care Cost Containment System (AHCCCS) Administration, a contractor or a health care insurer who is a licensed health care professional and who is assigned delegate access to the Program is required to operate under the authority and responsibility of the AHCCCS Administration's, contractor's or health care insurer's chief medical officer or other employee who is a licensed health care professional and who is authorized to prescribe or dispense controlled substances. The AHCCCS Administration, a contractor or an insurer is allowed to authorize up to ten delegates. The Board is required to grant access to Program information

**S1181: DOULAS; VOLUNTARY CERTIFICATION**

Establishes a voluntary certification process for a person to "practice as a state-certified doula" (defined). The Department of Health Services (DHS) is required to prescribe certification requirements by rule, including the scope of practice, core competencies, minimum qualifications, education and training requirements, and standards and requirements for education and training programs. DHS is required to waive the minimum training and education requirements for certification for applicants who provide documentation of current certification with a nationally recognized doula organization. DHS is required to establish by rule nonrefundable fees for state-certified doula certification, and to deposit the fees in a segregated account in the Health Services Licensing Fund. A doula certificate is valid for three years. Establishes the Doula Community Advisory Committee in DHS to consult with the DHS Director on rules relating to doulas. AS SIGNED BY GOVERNOR

## **S1218: NONHEALTH PROFESSIONS; OCCUPATIONS; REGULATIONS**

The state may regulate a profession or occupation only if there is credible evidence of harm that the unregulated practice threatens the public health, safety or welfare. Regulation cannot be imposed for the exclusive purpose of protecting a profession or occupation from economic competition. Each committee of reference (COR) that reviews an agency that administers an "occupational regulation" (defined elsewhere in statute) is required to consider a specified list of factors in determining the need for continuation or termination of the agency, including the extent to which failure to regulate a profession or occupation will result in the loss of insurance, an impact to the ability to practice as required by federal law, or the loss of constitutionally afforded practices. The list of possible recommendations that the sunset review report from the COR is required to include is expanded to include recommendations that the Legislature repeal the occupational license, convert the license to a less restrictive regulation, or instruct the state agency to seek legislation or adopt rules to reflect the COR's recommendation to impose less restrictive regulations, change the requisite personal qualifications, or redefine the scope of practice. ### **S1219: DONATED MEDICINE; REQUIREMENTS**

A "donor" (defined as any person or entity legally authorized to possess medicine) is permitted to donate "medicine" (defined) to an "authorized recipient" (defined as any entity that has a license or permit in good standing in Arizona and that is legally authorized to possess medicine). The authorized recipient is required to verify and record a list of specified information, including that the donor is legally authorized to possess the medicine. An authorized recipient is permitted to transfer donated medicine to another authorized recipient or to an entity participating in a drug donation program. Establishes requirements for an authorized recipient to accept donated medicine into inventory, and donated medicine that does not meet the requirements must be disposed of. Establishes requirements for donated medicine to be repackaged, labeled, and dispensed. Medicine donated is prohibited from being resold, but authorized recipients are allowed to charge a handling, dispensing or administrative fee, subject to limits prescribed by the Board of Pharmacy. Establishes immunity from civil liability, criminal liability or professional disciplinary action for specified persons acting in good faith under these provisions. Repeals the prescription medication donation program under the Board of Pharmacy, which allowed a person, manufacturer or health care institution to donate prescription medication to a physician's office, pharmacy, hospital or health care institution that voluntarily participated in the program. ## **S1237: FERTILITY FRAUD; CIVIL; CRIMINAL ACTION**

A woman who gives birth to a child after being treated for infertility, her spouse, or a child born as a result of the treatment are authorized to bring an action against a licensed health care provider who knowingly or intentionally treated the woman for infertility by using the provider's own spermatozoon or ovum without the patient's informed written consent to treatment using that spermatozoon or ovum. A donor of human reproductive material is authorized to bring an action against a licensed health care provider who treats a patient for infertility by using human reproductive material donated by the donor and who knows or reasonably should have known that the donor's human reproductive material was used either without the donor's consent, or in a manner or to an extent other than that to which the donor consented. A person who brings an action pursuant to this legislation has a separate cause of action for each child born as a result of the fraudulent fertility treatment or for each individual who received fertility treatment with the donor's human reproductive material. A plaintiff who prevails in an action is entitled to reasonable attorney fees and specified damages. Establishes deadlines for filing actions for civil fertility fraud. AS SIGNED BY GOVERNOR

### S1270: INSURANCE; PRESCRIPTION DRUGS; STEP THERAPY

Adds a new chapter to Title 20 (Insurance) governing "Step Therapy Protocols," defined as a protocol or program that establishes the specific sequence in which prescription drugs that are for a specified medical condition and that are medically necessary for a particular patient are covered by a health care insurer under a health care plan. Establishes requirements for clinical review criteria. If coverage of a prescription drug for the treatment of any medical condition is restricted for use by a health care insurer, pharmacy benefits manager or utilization review organization through the use of a step therapy protocol, the patient and prescribing provider must have access to a clear and convenient process to request a step therapy exception determination, and an exception must be granted if sufficient justification and supporting clinical documentation of any of a list of circumstances is submitted. A health care insurer, pharmacy benefits manager or utilization review organization is required to grant or deny a step therapy exception request within 72 hours after receiving the request, or within 24 hours if an exigent circumstance exists.

For Vote Analysis:  
☐ Support  
☐ Oppose

On granting a step therapy exception determination, the health care insurer, pharmacy benefits manager or utilization review organization is required to authorize coverage for the prescription drug prescribed by the patient's treating health care provider if the prescription drug is covered by the patient's health care plan. Applies to any policy, contract or evidence of coverage delivered, issued for delivery or renewed on or after December 31, 2022. AS PASSED SENATE

### **S1271: MEDICAL GRADUATE TRAINING PERMITS (~~ASSOCIATE PHYSICIANS, LICENSURE, COLLABORATIVE PRACTICE~~)**

The Arizona Medical Board and the Board of Osteopathic Examiners in Medicine and Surgery are required to grant a one-year transitional training permit to a graduate of a school of medicine who is not otherwise eligible to apply for a license or training permit and who meets a list of specified requirements, including having submitted a valid application to an accredited internship or residency program but was not selected for a position, and successfully completing examinations. A transitional training permit can be renewed for two additional one-year periods. A transitional training permit holder is authorized to function only under the supervision of a qualified physician within the setting of an eligible entity. Establishes requirements for a supervising qualified physician, and limits a physician to supervising one permittee at a time. Establishes requirements for an eligible entity and the supervising physician, including to provide ongoing clinical training to a permittee and ensure the permittee's tasks are within the scope of training, experience and competence. Before employing or contracting with a permittee, an eligible entity is required to notify the Department of Health Services (DHS) of the types and extent of medical training the entity plans to provide to the permittee and the names of the qualified physicians who will supervise the permittee. Establishes reporting requirements for entities that employ or contract with permittees. Requires permittees to participate in at least 60 hours of continuing medical

**S1282: NURSING CARE ADMINISTRATORS; CONTINUATION**

Retroactive to July 1, 2021, the statutory life of the Board of Examiners of Nursing Care Institution Administrators and Assisted Living Facility Managers would have been extended eight years to July 1, 2029. AS VETOED BY GOVERNOR. In his veto message, the Governor stated that an investigation by the Arizona Republic revealed several problems with the operations of this Board, and declared his intent to work with the Legislature to transfer all licensing and regulation of nursing care administrators and assisted living facility managers to the Arizona Department of Health Services.

**S1353: TERMINALLY ILL PATIENTS; COMPOUNDING PHARMACIES (ANTI-RABIES VACCINATION; RABIES TITER)**

"Chronically ill patients" and "terminally ill patients" (both defined) have the right to determine, with the assistance and guidance of their health care providers, individual courses of treatment through the use of medications and treatments obtained from a "compounding pharmacy" (defined). Compounding pharmacies that are licensed in Arizona must have access to active pharmaceutical ingredients that meet U.S. pharmacopeia "monographs" (defined) and that may be restricted from use by the U.S. Food and Drug Administration in order to provide chronically ill patients and terminally ill patients with the prescribed individual course of treatment. Does not allow any treatment or use of medication that is intended to cause the death of the patient. AS SIGNED BY GOVERNOR

### **S1373: HEALTH FACILITIES; DUTY OF CARE**

Licensed health care institutions that provide residential care and the institution's employees and agents have an affirmative duty of care for their residents. These institutions are required to initiate cardiopulmonary resuscitation (CPR), in accordance with that resident's advance directives and do-not-resuscitate order, to a resident who is nonresponsive or has a cessation of respiration, and are required to provide appropriate first aid to a resident who is in distress or who has fallen and is unable to reasonably recover independently. These institutions are prohibited from implementing policies that prevent employees from providing appropriate CPR or first aid to the institution's residents. Health care institutions and staff members who render CPR or first aid according to these requirements are not liable for civil damages as a result of any act or omission by the person rendering care, if the care is rendered in good faith and consistent with CPR or first aid certification standards. This liability exclusion does not apply to a person who acts with gross negligence while rendering care. AS SIGNED BY GOVERNOR

**S1377: CIVIL LIABILITY; PUBLIC HEALTH PANDEMIC**

If the Governor declares a state of emergency for a public health pandemic, a person or "provider" (defined) that acts in good faith to protect a person or the public from injury from the pandemic is not liable for damages in any civil action for any injury, death or loss to person or property that is based on a claim that the person or provider failed to protect the person or the public from the effects of the pandemic, unless it is proven by clear and convincing evidence that the person or provider failed to act or acted with willful misconduct or gross negligence. A person or provider is presumed to have acted in good faith if the person or provider adopted and implemented reasonable policies related to the pandemic. If the Governor declares a state of emergency for a public health pandemic, a health professional or health care institution that acts in good faith is not liable for damages in any civil action for an injury or death that is alleged to be caused by the health professional's or health care institution's action or omission while providing health care services in support of Arizona's response to the state of emergency declared by the Governor, unless it is proven by clear and convincing evidence that the professional or institution failed to act or acted with willful misconduct or gross negligence. A health professional or health care institution is presumed to have acted in good faith if the professional or institution relied on and reasonably attempted to comply with applicable published guidance relating to the pandemic that was issued by a federal or state agency. Applies to all claims filed before or after the effective date of this legislation for an act or omission that occurred on or after March 11, 2020 relating to a pandemic that is the subject of the state of emergency declared by the Governor. Does not apply to workers' compensation claims. Retroactive to March 11, 2020. Severability clause. AS SIGNED BY GOVERNOR

**S1417: HEALTH CARE DIRECTIVES; CONTACT ORDERS**

Unless inconsistent with the express directions of the principal in a health care directive, an agent who is appointed under a health care directive is required to encourage and allow contact between the principal and other persons who have a significant relationship with the principal, but is authorized to limit, restrict or prohibit contact between the principal and any person if the agent reasonably believes that the contact will be detrimental to the principal's health, safety or welfare. A person who has a significant relationship with the principal may petition the court for an order compelling the agent to allow the person to have contact with the principal. Establishes a list of factors the court must consider in determining what, if any, contact between a person and the principal is in the principal's best interest. Establishes requirements for modifying, suspending, or terminating a contact order. AS PASSED SENATE

## **S1680: NEWBORN SCREENING PROGRAM; TESTING**

The newborn screening program is required to include all congenital disorders that are included on the recommended uniform screening panel adopted by the Secretary of the U.S. Department of Health and Human Services for both core and secondary conditions. Beginning January 1, 2022, disorders that are added to the core and secondary conditions list of the recommended uniform screening panel must be added to Arizona's newborn screening panel within two years after their addition. The Department of Health Services (DHS) is required to present any change to the newborn screening program fee to the Joint Legislative Budget Committee for review. No later than 60 days after DHS adjusts the fee, health insurers and the Arizona Health Care Cost Containment System (AHCCCS) are required to update hospital rates that include newborn screening to reflect the increase. Session law requires DHS to add spinal muscular atrophy and x-linked adrenoleukodystrophy to Arizona's newborn screening panel by December 31, 2021 and to add all remaining core and secondary conditions that are included on the recommended uniform screening panel as of December 31, 2021 to Arizona's newborn screening panel by December 31, 2023. Contains a legislative intent section. AS PASSED SENATE

## **S1786: PRISONERS; MENTAL HEALTH TRANSITION PROGRAM**

The Arizona Department of Corrections (ADC) is required to establish a mental health transition pilot program that provides eligible inmates with transition services in the community. ADC is required to contract with private or nonprofit entities to provide eligible inmates with mental health transition services, and is required to place up to 500 eligible inmates in the pilot program each year. ADC is required to adopt rules to implement the program, and required provisions are listed. ADC is required to conduct an annual study on recidivism of program participants and submit a report to the Governor and the Legislature by December 31 of each year. The pilot program self-repeals July 1, 2026. Appropriates \$1.3 million from the general fund in each of FY2021-22, FY2022-23, FY2023-24, and FY2024-25 to ADC for the pilot program. AS PASSED SENATE
